

# ESMO DEEP DIVE: BREAST CANCER

ESMO WEBINAR SERIES

## ESMO DEEP DIVE: BREAST CANCER WEBINAR SERIES 2024

A highly anticipated new webinar series freely available to all ESMO members as an advanced educational benefit. The series will comprise of 8 Deep Dive webinars delivered from February to October 2024.

### About the ESMO Deep Dive Webinar Series

- An ESMO Webinar Series designed to provide a **Deep Dive** in areas of controversy, unmet need, active research, and breakthroughs – **advanced level knowledge**.
- **8 webinars** delivering to the oncologist a **second, deeper layer of permeative, educational experience in breast cancer** profiling and precision management.
- The **faculty** of each webinar consists of four-five speakers, identified among **world renowned key investigators and opinion leaders** from the ESMO Faculty and expert pool.
- **Each webinar includes interactive, live presentations, discussion, and Q&A.**

Designed for oncologists with a background knowledge of the tumour, these webinars aim to better equip health professionals for informed, innovative thinking and engagement in ongoing and future research.

### Series Coordinators

**Nadia Harbeck**  
LMU University Hospital  
Munich, Germany

**Peter Schmid**  
Barts Cancer Institute  
London, United Kingdom
